

Classroom set of 12 Electromagnetism trainers

Do your students struggle with electricity? Do you have challenges capturing their attention and getting them interested in how electric motors work? Do you want to equip them with the skills and knowledge necessary to work on hybrid and electric vehicles?

The ConsuLab CL-1902 Electromagnetism trainer can help you bring your students further and prove their learning. Capture their attention with live demonstrations of phenomena!

One of the most common ways to package the new electromagnetism trainer is as a classroom package.
